

With iTV's Ready Remind and Ready Record: don't miss your favorite show again. Comcast's Interactive TV service brings many fun and useful extras to Comcast Digital Cable customers at no additional charge. With 'Ready Remind' you easily set reminders to pop up just prior to the show's air time—using your remote control, with just a push of a button. Or, if you have Comcast DVR service, set a recording for the show right from the ad with 'Ready Record'—no need to go look it up in the TV Listings! Never miss a network premiere or special showing again.

>>Ready? It's time to set it up.

1.

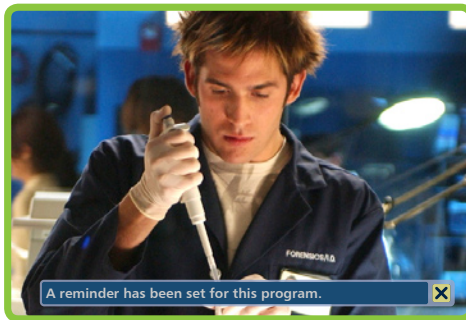

Getting Started

A TV show may schedule a Ready Remind or Ready Record tag to appear within a commercial or during a program to promote upcoming episodes and series.

Tip

The "Record" functionality is only available with DVR service. To receive Comcast DVR service call 1-800-COMCAST.

2.

Set a Reminder or Recording

When a prompt appears use the **Arrow Keys** on your remote to highlight the "Reminder" or "Record" option and press **OK/Select**.

For a recording, you have the option to choose from recording a single episode or the whole series. Use the **Arrow Keys** to highlight "Episode" or "Series" and then press **OK/Select**.

Tip

To exit at any time, use the **Arrow Keys** to highlight the "X" button and press **OK/Select**.

3.

Confirmation

A confirmation message will appear once your reminder or recording is set.

Tip

The confirmation message will automatically disappear when the commercial or program is over or you may press the **OK/Select** button on your remote control while the "X" on-screen icon is highlighted.

You can turn the pop-ups off and on in the Setup menu, accessible from the Main Menu.

The wrap up. Thanks to Ready Remind and Ready Record, you'll never miss any of your favorite shows. It's easy, all you need is your remote. Just a few quick pushes of the button and you're set.
